## Compatible Ecommerce Stores

Ecommerce store providers with optimal payments integration

Also compatible with these popular ecommerce store providers

# This is Inventory

See what's in stock, what's on order, and make adjustments. Tap, tap, done.

**Watch 5 customers check inventory**

## Inventory your way

Organize products with images, prices, and categories—then run reports to rank best-selling items.

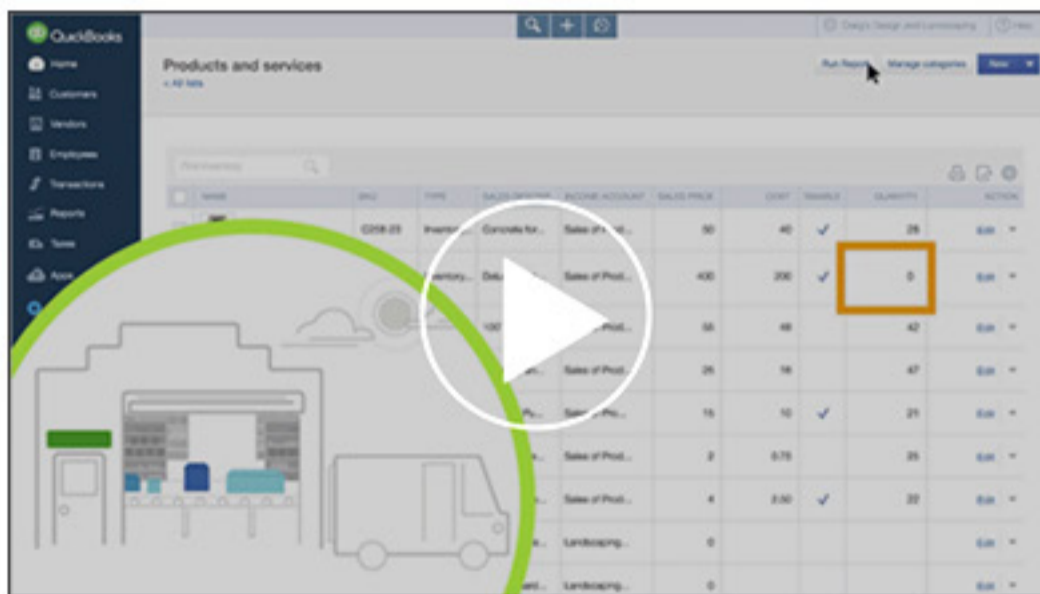

## What's on hand

Your inventory is automatically updated—so you always know what's selling and what to reorder.

## Vendor friendly

Keep track of what you've ordered from each vendor—it's all in one place, so reorders are a snap (or tap).
